

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Max Moskowitz on 3/13/2009.

The application has been amended as follows:

In claim 12 - following line 2 a new line has been inserted --providing the current generating means of claim1,-- and

- in line 7, --from said current generating means-- has been inserted following "current (i(t))".

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a means of current generation as set forth in the claims and described in reference to figure 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
